INDEX TO VOLUME 32

1939-1940

ILLINOIS STATE ACADEMY OF SCIENCE

NOTE.—Articles are listed alphabetically by authors, and also are grouped, by title, under the following subjects: Agriculture, Anthropology, Botany, Chemistry, Geography, Geology, Physics, Psychology and Education, and Zoology. Inasmuch as the *Transactions* are issued four times a year—in September, December, March and June—the number 1, 2, 3, or 4 preceding the colon indicates the quarterly issue in which the item occurs.

A

Academy business

Affiliated high school science clubs and scientific societies. 4:273

Affiliations committee report. 4:259

American Association for the Advancement of science:
Report of representative to Academy conference. 4:264
Research grants for 1940-41. 4:263

Annual meeting at Springfield, Minutes. 4:253-68

Auditing committee's report. 4:257

Conservation committee's report. 4:260

Conservation of archaeological and historical sites, Committee report. 4:263

Conservation council delegate's report. 4:262

Council meeting minutes. 4:249-252

Editor's report. 4:257

High school science and clubs, committee report. 4:266

Junior Academy winners of awards. 4:268-72

Librarian's report. 4:257-9

Membership committee's report. 4:263

Memoirs: Boomer, Simeon E., 1:26; Kunz, Jakob, 1:27-8; Mitchell, Catherine A., 1:26; Mumford, Herbert W., 1:29; Noé, Adolf Carl, 1:30-1.

Officers' and committees' reports. 4:253-266

Publications committee report. 4:263

Resolutions committee report. 4:261

Science Club Service, Annual report. 4:267

Section chairmen's reports (1939 meeting): Agriculture (Dungan) 2:39; Anthropology (Ruyle) 2:57; Botany (Lamkey) 2:73; Chemistry (DeVries) 2:99; Geography (Barton) 2:137; Geology (Stark) 2:163; Physics (Johnson) 2:177; Psychology and Education (Carlson) 2:193; Zoology (Townsend) 2:203

Treasurer's report. 4:255

Agriculture

Agricultural adjustment programs, Residual benefits resulting from activities in connection with. Whalin. 2:51-2

Agriculture, Improvement in, through the assistance of vocational-agriculture instructors. Henderson. 2:47-8

Azotobacter flora of the Morrow plots. Appleman and Sears. 2:40-2

Bacteria found in ice cream, A taxonomic study of. Brannon. 2:42-3

Corn yields stabilized by hybrid corn. Copper. 2:43-5

Does it pay to make an individual ear test of hybrid corn? Koehler. 2:50-1

Effects of the soybean crop on soil productivity. Sears and Burlison. 2:54-6

Hybrid corn stabilizes corn yields. Copper. 2:43-5

Hybrid corn, Does it pay to make an individual ear test of? Koehler. 2:50-1

Ice cream, A taxonomic study of bacteria found in. Brannon. 2:42-3
Illinois soils, Vagaries of some Smith. 2:48-9
Improvement in agriculture through the assistance of vocational-agriculture instructors. Henderson. 2:47-8
Insect abundance around wild life area. Farrar and Flint. 2:46
Morrow plots, Azotobacter flora of the. Appleman and Sears. 2:40-2
Relationship in soils of total nitrogen, total replaceable bases and productivity. Snider. 2:53-4
Residual benefits resulting from activities in connection with agricultural adjustment programs. Whalin. 2:51-2
Soil productivity, Effects of the soybean crop on. Sears and Burlison. 2:54-6
Soils, Relationship of total nitrogen, total replaceable bases, and productivity. Snider. 2:53-4
Soils, Vagaries of some Illinois. Smith. 2:48-9
Soybean crop, Effects of on soil productivity. Sears and Burlison. 2:54-6
Taxonomic study of some bacteria found in ice cream. Brannon. 2:42-3
Vagaries of some Illinois soils. Smith. 2:48-9
Vocational-agriculture instructors, Improvement in agriculture through the assistance of. Henderson. 2:47-8
Wild life area, Insect abundance around. Farrar and Flint. 2:46

Anthropology

Artifacts: Engraved shell gorgets from Illinois. Stephens. 2:66
Botany, Prehistoric. Gumbart. 2:58-9
Copper needles, The detection of fraudulent. Mohrman. 2:60-1
Discovery of a buried aboriginal shellheap in the Illinois River valley. Schoenbeck. 2:61-2
Engraved shell gorgets from Illinois. Stephens. 2:66
Indians, Ornamentation among the American. Soper. 2:63-5
Indian villages of the Peoria Lake region. Spooner. 2:67-71
Appleman, M. D. and Sears, O. H., Azotobacter flora of the Morrow plots. 2:40-2

Ball, John R., Silurian rocks of southern Illinois. 2:164-5
Barton, Thomas F., Recreation possibilities of the Shawnee National Forest Purchase Units. 2:149-52
Blanchard, W. O., Wanted—more variety in the geographic menu. 2:138-9
Bockstahler, Lester I., Experimental production of vortex rings. 2:178
Booth, Alfred W., Distribution of Japanese cities. 2:160-1
Borger, Harvey, Recovery and preservation of marcasitized and pyritized microfossils. 2:166

Botany

Abscission of the leaves of *Coleus blumei*, Factors affecting. 2:80-1
Abutilon theophrasti, Variations in carpel number of. Shull. 2:74-5
Ash along the axis of herbaceous plants, Differential distribution of. Edgecombe. 2:79
Blackman interpretation of plant growth. Fuller. 2:75-6
Bryophyllum leaves, Relation of cicatrization to evaporation from. Welch. 2:78
Carbohydrate utilization by *Diplodia macrospora*. Stevens and Larsh. 2:82
Carpel number of *Abutilon theophrasti*, Variations in. Shull. 2:74-5
Cicatrization as related to evaporation from leaves of *Bryophyllum*. Welch. 2:78
Coleus blumei, Factors affecting the abscission of the leaves of. Myers. 2:80-1
Composition of prairie vegetation in Illinois. Reihmer. 2:87-8
Conifers, Pollination drops in certain. Cook. 2:93-4
Differential distribution of ash along the axis of herbaceous plants. Edgecombe. 2:79
Diplodia macrospora, Carbohydrate utilization by. Stevens and Larsh. 2:82
Evaporation from leaves of *Bryophyllum* as related to cicatrization. Welch. 2:78
Factors affecting the abscission of the leaves of *Coleus blumei*. Myers. 2:80-1
Flora of Starved Rock State Park, Additions to the. Ries. 2:89-90

Forest lands, Why Illinois settlers chose. Vestal. 2:85-7
Herbaceous plants, Differential distribution of ash along the axis of. Edgecombe. 2:79
Histology of an Illinois Psaronius, Notes on. Moon. 2:95-7
Hormones (growth) and plant growth. Shull. 1:15-8
Illinois: Additions to the flora of Starved Rock State Park. Ries. 2:89-90
Illinois settlers: Why did they choose forest lands? Vestal. 2:85-7
Illinois: Its composition of prairie vegetation. Reihmer. 2:87-8
Leaves, Water absorption by. Thut. 2:77
Oedogoniales of Illinois. Tiffany. 2:90-1
Plant cover for wild animals during the winter season. Terwilliger. 2:98
Plant growth and growth hormones. Shull. 1:15-18
Plant growth, The Blackman interpretation of. Fuller. 2:75-6
Pollen of certain Taxodiaceae. Kaeiser. 2:91-3
Pollination drops in certain conifers. Cook. 2:93-4
Prairie vegetation: Composition in Illinois. Reihmer. 2:87-8
Psaronius, Notes on the histology of an Illinois. Moon. 2:95-7
Smoky Mountain plants. White. 2:82-5
Starved Rock State Park: Additions to its flora. Ries. 2:89-90
Taxodiaceae, The pollen of certain. Kaeiser. 2:91-3

Chemistry

Absorption bulb for detecting various gases. Simon and Reedy. 2:128-9
Alkyl halides (tertiary), Hydrolysis of. Cheronis. 2:101-2
A pH experiment for the first course in chemistry. Thiessen. 2:131-2
Chemistry: A new approach to first year. Schmeing. 2:127-8
Chemistry of europium. Hopkins and Taebel. 2:132-3
Chemistry; Technics for large group demonstration. Cheronis and Freud. 2:100-1
Cigarettes, Uniformity in. Nicholson and Schuler. 2:118-9
Coal samples: Some chemical changes during storage. Rees and Kalinowski. 2:120-1
Crude oils produced in the old and new Illinois fields: a comparison of their chemical characteristics. Rees and Henline. 2:122-3
Europium: its chemistry. Taebel and Hopkins. 2:132-3
Humic acids from Illinois coals, Preparation of. Harman and Yohe. 2:134-6
Hydrolysis of tertiary alkyl halides. Cheronis. 2:101-2
Illinois coals: Preparation of humic acids from. Yohe and Harman. 2:134-6
Liquid ammonia as a dietary nitrogen supplement. Horvitz and Roberts. 2:124-6
Marihuana. Higley. 2:116-7
Motor fuels over the world. Egloff. 2:103-114
Nitrogen supplement, Liquid ammonia as a dietary. Roberts. and Horvitz. 2:124-6
Petroleum: A comparison of the chemical characteristics of crude oils produced in the old and new Illinois fields. Rees and Henline. 2:122-3
Quantitative estimations in the qualitative course in chemistry. Swift. 2:130-1
Salt solutions (saturated), Special study of vapor pressures of. Rees and Land. 2:119

Technics for large group demonstration in chemistry. Cheronis and Freud. 2:100-1
Tertiary alkyl halides, Hydrolysis of. Cheronis. 2:101-2
Tin sub-group procedure, A modified. Reedy and Hanke. 2:114-5
Uniformity in cigarettes. Nicholson and Schuler. 2:118-9
Vapor pressures of saturated salt solutions, Special study of. Rees and Land. 2:119
